RADINGOANIS GADIFELE PARSONS

Computer Science Student | **071 597 7044** | **Email** | **LinkedIn** | **GitHub**

ABOUT ME

Final-year Diploma in Computer Science student at Tshwane University of Technology with a strong interest in technology and exploring different areas of the industry, including software development, backend development, application development, cybersecurity and Linux.

Enjoy problem-solving, coding, debugging and analysing technical challenges to understand how systems work and identify practical solutions. Have developed technical knowledge through academic studies and hands-on experience with programming, databases, web technologies and operating systems.

Currently seeking a Work Integrated Learning (WIL) opportunity to gain practical industry experience, apply acquired Computer Science knowledge and fulfil the practical training requirement for completing my Diploma. Eager to learn, contribute to a team and continue developing professionally within the technology industry.

TECHNICAL SKILLS

Programming: Java; Kotlin (foundational knowledge); JavaScript

Web Development: HTML; CSS; JavaScript

Java Development: Object-Oriented Programming (OOP); Java EE; EJB; JPA; Java Servlets; JSP

Databases: SQL; MySQL; PostgreSQL; relational database concepts; CRUD operations

Operating Systems: Linux (Ubuntu) Development

Tools NetBeans; Visual Studio Code; Notepad++; Android Studio

Version Control: Git; GitHub

Technical Knowledge: Software Development Life Cycle (SDLC); database manage; backend development concepts; Android development fundamentals; cybersecurity fundamentals

PROJECTS

SpazaHub – Tuck Shop Management System

Java | *Java EE* | *EJB* | *JPA* | *JSP* | *Servlets* | *PostgreSQL*

- Developed a Java EE web-based tuck shop management system using NetBeans.
- Implemented user authentication and role-based access for different system users.
- Developed product and category management, sales processing, stock management and reporting functionality.
- Integrated an EJB module to handle business logic and data access; used JPA and PostgreSQL for data persistence.

Old Lady's Tuck Shop – Console Application

Java | *Arrays* | *Methods* | *Loops*

- Developed a standalone Java console application simulating tuck shop transactions.
- Implemented product selection, stock availability checks, payment processing, change calculation, customer receipts and shop summaries.
- Applied Java programming fundamentals, including arrays, methods and loops.

Personal Portfolio Website

HTML | *CSS* | *JavaScript*

- Designed and developed a personal portfolio website to showcase technical skills, academic background and programming projects.
- Organised content into interactive sections covering personal information, education, skills and projects; presented professional interests and goals.

EDUCATION

Diploma in Computer Science (In Progress) — Tshwane University of Technology (TUT)

Final-year student | WIL outstanding

Relevant areas of study: Object-Oriented Programming; Advanced Object-Oriented Programming; Database Programming; Internet Programming; Software Engineering; Linux; Android Application Development.

National Senior Certificate (NSC) — Ngwanakwena Senior Secondary School **|** 2023

WORK EXPERIENCE

Residence Recruitment Assistance | 2025–2026

- Assisted students with recruitment-related enquiries and administrative processes.
- Captured and maintained student information; organised documents and supported administrative activities.
- The Dawn Village (Pretoria North) **|**

PROFESSIONAL SKILLS

Problem-solving and logical thinking • Analytical and critical thinking • Debugging • Communication and interpersonal skills • Teamwork and collaboration • Organization and task prioritization • Adaptability • Willingness to learn

LANGUAGES

English • Sepedi • Setswana
